

# Tech Jail Management System

Are you looking for an easy to use and cost effective Jail Management System? If the answer is yes, then TechJMS, a comprehensive Jail Management System developed by Houston based Technology Consultants, Inc. is the solution. TechJMS provides a complete Jail Management System that tracks inmate data from booking through release.

TechJMS with full booking, tracking, detention, and release process, along with related inmate activity and accounting can significantly increase the efficiency and safety of the facility. TechJMS is integrated with Technology Consultants, Inc.'s TechLERMS (Law Enforcement Record Management System) and eliminates redundant data entry by pulling information already captured in Master Name Index and Arrest Reports. TechJMS is designed for flexibility and ease-of-use.

For the past 10 years Technology Consultants, Inc. has evolved into an established and pioneering software by understanding your needs and tailoring IT solutions that meet your requirements.
